

THERMAL AND VISUAL SURVEY DRONE CPD SEMINAR

Presentation by: Timothy Wright and Mike Edwards, Ocuair Ltd

The Concrete Society Wales Region is running a presentation relating to INFRA THERMOGRAHY AND AERIAL APPLICATIONS FOR DRONES TO IDENTIFY CONCRETE SPOILING.

This CPD event has been design for potential users of infrared thermography as a non-destructive test method in the construction and building maintenance industries, outlining the applications and benefits.

The seminar will also cover the use of unmanned aerial systems (drones) as an access platform for working at height or in dangerous locations whether building defect analysis, quality assurance, aerial mapping or quantitative thermal analysis. The seminar will outline the applications, benefits and legal aspects of operating drones and how they can be used to eliminate risk and save money.

Wednesday 25 January 2017
ICE Arena Wales, Olympian Drive, Cardiff CF11 0JS
8:00am for Bacon Roll with Tea or Coffee
8:15 Presentation starts (promptly)

This is a free event courtesy of The Concrete Society (Wales Region)
